

HLR 7970 Hi / Lo Set

The HLR 7970 Hi/Lo Set is a manifold assembly with two Pressure Sensors. One Pressure Sensor is programmed as a Low (PSL/Pressure Decreasing) and the other is a High (PSH/Pressure Increasing). Together the Pressure Sensors monitor a particular operating pressure range. They react pneumatically whenever process media pressure falls below or rises above specific set pressures.

BILL OF MATERIAL

ITEM	PART NAME	PART NUMBER	MATERIAL
1.	Pressure Sensor (2)	7970	316SS
2.	Manifold	8130	316SS
3.	Tubing Connection (2)	1/4" NPT x 1/4 tube	316SS
4.	Tubing	1/4" O.D.	316SS
